

STORAGE AND BULK HANDLING SERVICES

NBHC storage and bulk handling services provide unrivaled commodity management services such as handling, weighing, storage, loading & unloading through its nationwide network of clean & secure, dry & cold storage facilities, along with third-party logistics and warehouse management services. It provides complete preservation & protection of various commodities such as food grains, cereals, pulses, spices, oilseeds, mentha oil, sugar, guar seed, gum, etc. NBHC also enables customised solutions based on client specifications, bringing in operational and financial efficiency to businesses.

COMPETITIVE ADVANTAGE WITH NBHC

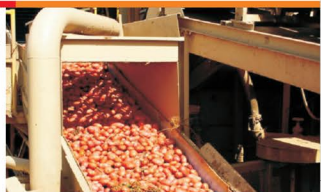

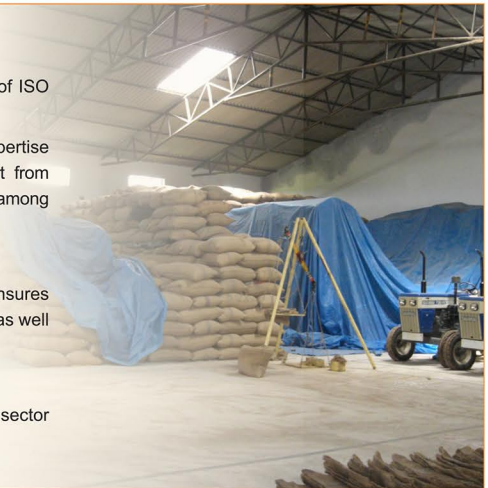

NBHC gives you an opportunity to efficiently manage your resources and concentrate on your core competencies, yet minimizing costs and risks. It also ensures that your operations remain aligned to business goals while keeping resources focused to business priorities.

Supply chain operations management is as much about operational efficiency as cost optimization. It means setting optimum service levels, optimising costs, and meeting both these objectives consistently. It also means deploying resources fluidly as your business and industry evolve and controlling the impact on your bottom line.

NBHC empowers you to manage your operations efficiently, regardless of the type of commodities, locations or quantities you deal in.
